Greater Denver, CO | (303) 406-1055 | greymbrewer@outlook.com | [linkedin.com/in/grey-brewer](https://www.linkedin.com/in/grey-brewer) | github.com/GBrew18

PROFESSIONAL SUMMARY

IT systems professional with nearly two years of hands-on experience administering Windows, macOS, and Linux endpoints across multi-site enterprise environments — currently the primary on-site IT admin for a 90-user aerospace technology office running both GCC High and commercial Microsoft 365 tenants. Deep fluency in Microsoft Entra ID, Intune, Conditional Access, and RBAC, with a strong foundation in endpoint lifecycle management, identity administration, and cloud productivity infrastructure. CompTIA Security+, Network+, Linux+, and CLNP certified. Looking to grow into a cloud support, senior IT, or systems administration role on a team that values reliability, ownership, and continuous improvement.

EXPERIENCE

Red 6 Aerospace | IT Support Administrator Nov 2025 - Present

Full-Time · On-Site · Greater Denver, CO

- Serve as the primary on-site IT admin for a 90-user office within a multi-site aerospace organization (~200 users across distributed locations).
- Administer Windows, macOS, and RHEL endpoints across the full device lifecycle: provisioning, onboarding/offboarding, patching, maintenance, and EOL replacement.
- Manage Microsoft 365 across GCC High and commercial environments — Entra ID user/group administration, shared mailboxes, MFA enrollment, RBAC workflows, and Conditional Access policies.
- Enforce endpoint compliance and app deployment via Microsoft Intune: policy configuration, device health monitoring, and operational support across managed devices.
- Troubleshoot endpoint, identity, access, and network issues using Atera RMM, PowerShell, SSH, and Cisco Talos.
- Coordinate local incident response during power, network, and infrastructure outages to minimize downtime and maintain business continuity.
- Support access revocation, privileged access verification (AutoElevate), and phishing triage in a regulated, security-conscious environment.
- Author and maintain onboarding documentation, SOPs, and knowledge base articles to drive operational consistency and first-contact resolution.

IDR, Inc. → Sierra Nevada Corporation | IT Support Technician II Jul 2025 – Nov 2025

Full-Time · On-Site · Centennial, CO · 1-Year Contract

- Delivered responsive desktop support tracked in ServiceNow against defined SLA targets in a large, complex enterprise environment.
- Used SCCM for system imaging, software deployment, and patch compliance management across a diverse Windows/Linux fleet.
- Configured and maintained conference rooms and AV systems for internal and DoD-aligned briefings.
- Contributed to internal documentation and cross-functional IT process improvements.

SEAKR Engineering — An RTX Company | IT Support Specialist Mar 2025 – Jul 2025

Full-Time · On-Site · Centennial, CO

- Delivered technical support across Windows, Linux, and Solaris environments via multiple channels in a defense-adjacent engineering organization.
- Administered Active Directory: account provisioning, password resets, group memberships, and access control aligned with security policy.
- Performed network troubleshooting across DNS, DHCP, and routing; managed software and firmware patch compliance.
- Authored Bash and Batch automation scripts; tracked support requests in Request Tracker (RT) per SLA and escalation protocols.

Stryker Site Services | IT Support & Data Entry Technician May 2024 – Mar 2025

Part-Time · Independent Contractor · Greenwood Village, CO

- Executed Windows 11 upgrade across primary workstations; performed a 2 TB OneDrive migration to prevent data loss.
- Implemented YubiKey 2FA to meet T-Mobile security compliance requirements; upgraded hardware and deployed dual-monitor workstation.
- Supported connection to T-Mobile's VDI environment; resolved software, hardware, and peripheral issues on-call.

EDUCATION & CERTIFICATIONS

CompTIA Security+ (Self-Study)	Jun 2025
CompTIA Network+ (Self-Study)	Mar 2025
CompTIA Linux+ (Self-Study)	Jun 2024
CompTIA CLNP (Self-Study)	Mar 2025
University of Denver — Cybersecurity Boot Camp	Sep 2024 – Mar 2025
Tabor College — Coursework in Psychology & English	2020 – 2021
Embry-Riddle University — Coursework in Aerospace Engineering	2018 – 2019

TECHNICAL SKILLS

Operating Systems	Windows 10/11, Windows Server, RHEL, CentOS, Ubuntu, Fedora, OpenSUSE, Solaris, macOS
IAM & Identity	Microsoft Entra ID (Azure AD), Active Directory, Conditional Access, MFA, RBAC, Kerberos, SSO
Endpoint & MDM	Microsoft Intune, SCCM, Atera RMM, AutoElevate, Group Policy
Cloud & M365	Microsoft 365 (GCC High & Commercial), Azure fundamentals, VDI, OneDrive, SharePoint, Teams
Scripting	PowerShell, Bash, Batch, Python (basic), cron
Networking	TCP/IP, DNS, DHCP, VLANs, routing, port scanning, packet capture
ITSM	ServiceNow, Request Tracker (RT)
Security (Supplemental)	Splunk, Wireshark, Suricata, Zeek, MITRE ATT&CK, NIST CSF
Infrastructure	Docker, Ansible, Vagrant, Raspberry Pi cluster builds

HOMELAB & CONTINUED LEARNING

Pi-Based Network Monitoring ClusterNov 2023 – Present

Multi-node Raspberry Pi cluster running Suricata IDS/IPS, Zeek traffic analysis, and Docker-containerized log forwarding — used as a hands-on platform for network monitoring, Linux administration, and infrastructure automation.

TryHackMe & DU Cybersecurity Boot CampSep 2024 – Mar 2025

24-week intensive covering systems hardening, network security, SIEM operations (Splunk), and offensive security fundamentals. Supplemented with 12+ hands-on TryHackMe labs across tooling and exploitation.

OTHER EXPERIENCE

Compri Consulting | Technical Recruiter Jul 2022 – Sep 2024

Promoted from Technical Sourcer (Jul 2022) · Position eliminated due to market downturn · Denver, CO

- Ran full-cycle IT recruiting across software, infrastructure, QA, PM, and analyst roles; sourced 10+ placements within first 6 months.

- Built strong working knowledge of IT roles, tech stacks, and hiring pipelines across the Denver tech market.

Valley Country Club | Golf Operations Supervisor & Lead Junior Instructor Feb 2016 – Jul 2022

Aurora, CO

- Led Junior Golf curriculum for multiple seasons; managed scheduling, presentations, and POS systems using MS Office.
